Optimizing Telehealth Delivery of Nutrition Therapy

The healthcare landscape is changing quickly, especially with the increased use and acceptance of telehealth. Telehealth coverage for medical nutrition therapy has dramatically increased, and patients are more comfortable with virtual platforms. This webinar covers how to optimize the quality, privacy, and reimbursement of nutrition therapy that is delivered via telehealth.

Learning Objectives:

- Participants will understand the insurance reimbursement climate for medical nutrition therapy (MNT) delivered via telehealth
- Participants will learn how to ensure that telehealth delivery of MNT is HIPAA compliant
- Participants will discover how to optimize the quality and efficiency of telehealth-delivered MNT

PRESENTER

Erin Skinner, MS, RD, LDN, IFNCP, CLT
Registered Dietitian Nutritionist

Erin Skinner is a Registered Dietitian and military veteran with 14 years of healthcare experience. She previously helped elite military groups optimize their nutrition, then shifted to the world of Integrative and Functional Nutrition.
